

Addendum:

1. Could you please email me a recent copy of the Des Plaines Public Library electricity bill?

Answer: No, because the library does not get an electric bill - we are part of the City of Des Plaines. The City does not get a bill either, because they/we are on the franchise. ComEd should be able to give you rebate pricing based on that situation.

2. Please clarify item 3 on the meeting notes: Does the library want trough or flat panel fixtures?
 - a. We request flat panels to replace all 2 by 2s and 2 by 4s in public areas of the library (main floors, study rooms.)

Answer: The priority is for dimming/zone controls in public spaces. Exhibit A refers to these as "common" or "collection" areas. This zoning capability should be managed from a computer. Fixtures should support this capability.
