Pre K-3 to 8th Grade

SAC offers affordable, accelerated STREAM education and is a college preparatory school serving students from Pre K-3 to 8th grade

Our students' academic progress, as measured by their NWEA test scores each year, consistently increases by an average of two grade levels in all subjects.

All elementary and middle-school students participate in year round reading programs and writing competitions to enhance literacy skills.

Students enjoy a sophisticated Technology Education program which includes computer science courses in advanced computer programming in Java, the writing of Android apps, and participation in a variety of Robotics and Engineering clubs.

We offer a full-day preschool program for ages 3 and 4, five days per week.

Check out our small class sizes!
