

Wireless Printing

Sending jobs and printing from the Public wireless.

1. Go to website: <http://www.printeron.net/webprint/dppl>
2. Enter a user name and browse to the file that you are attempting to print (or use a URL).

3. Press the right arrow to continue:

4. Select type of document and number of copies to print (for anything other than Excel or PowerPoint leave it on "select type")

Printing Options

Number of copies:

All pages

Pages: - (eg, 1-6 or 3-3).

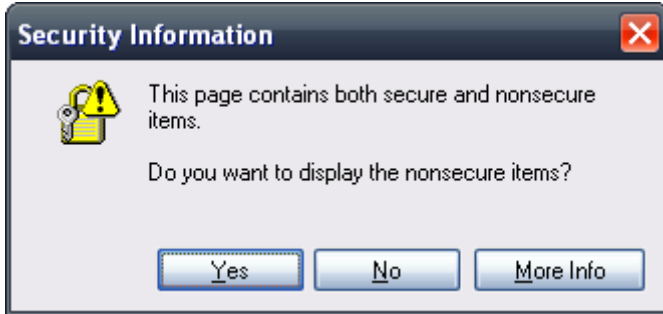

Document options:
Select your options below.

Document type:
Select type
Excel
PowerPoint

5. Press the Right Arrow to continue.

6. A Security Information window *may* appear. Click Yes to continue and to display nonsecure items.

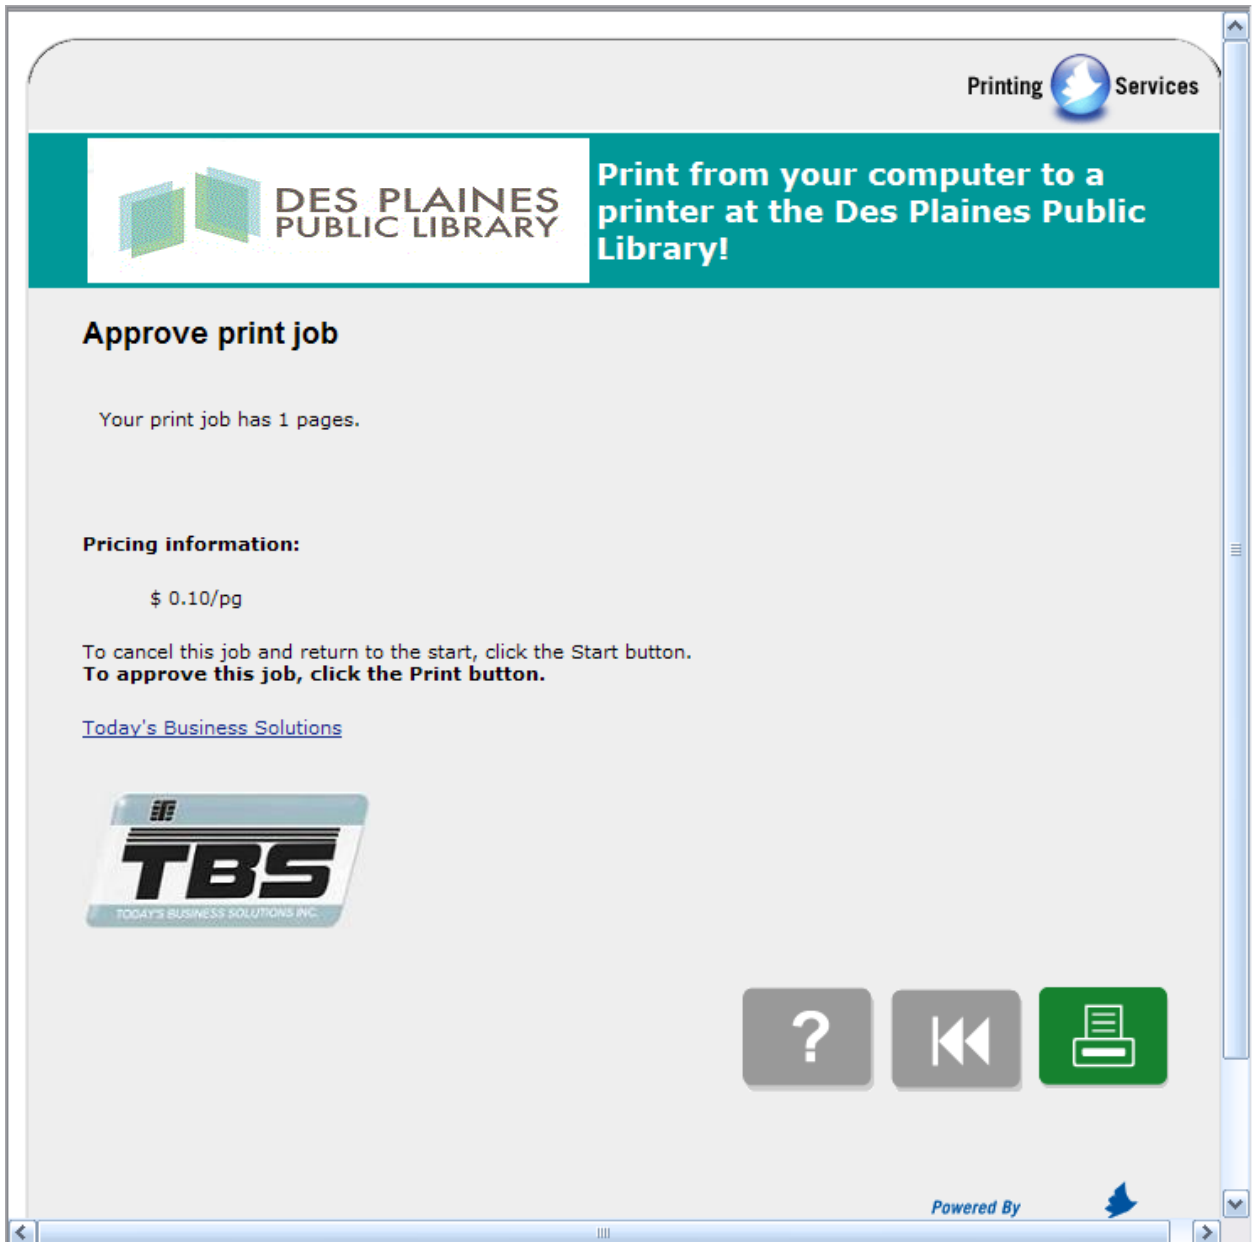

7. Your print job total will calculate.

8. Your total job cost amount will then display with a print button.

9. Press the green print button to send the job to the Des Plaines Public Library

10. Your document has now been sent to our printers successfully!

Note: To print out your document, please go to the fourth floor printstations to pay and release your job. It will be stored under the username that you chose during the first step of this process.

1. If you want to create another job. Press the doubleback arrow to start the process over again.
